

Niax™ Catalyst A-338

Product Description

Niax catalyst A-338 is a balanced tertiary and partially reactive amine to consider for use in molded polyurethane foams. It is a delayed action catalyst which will support a general improved cure combined with a more open foam.

Key Features and Typical Benefits

- Good cure at low mold temperature
- Good skin cure combined with providing open foam
- Excellent candidate in MDI, MDI/TDI or TDI rich formulations
- May be added as a separate stream or in a pre-blend with polyol and/or water

Typical Physical Properties

Appearance	Clear yellow liquid
Specific Gravity at 25 °C	0,87
Viscosity at 25 °C, cSt	35
Flash Point, Pensky Martens closed cup	40 °C
Water Content, %	1 - 3

Typical properties are average data and are not to be used as or to develop specifications.

Potential Applications

- Automotive seating
- Energy absorbing foams for automotive
- Upholstery furniture

General Considerations for Use

Niax catalyst A-338 typical use level needs to be defined according to the specific formulations and applications characteristics.

Patent Status

Nothing contained herein shall be construed to imply the nonexistence of any relevant patents or to constitute the permission, inducement or recommendation to practice any invention covered by any patent, without authority from the owner of the patent.

Product Safety, Handling and Storage

Customers should review the latest Safety Data Sheet (SDS) and label for product safety information, safe handling instructions, personal protective equipment if necessary, emergency service contact information, and any special storage conditions required for safety. Momentive Performance Materials (MPM) maintains an around-the-clock emergency service for its products. SDS are available at www.momentive.com or, upon request, from any MPM representative. For product storage and handling procedures to maintain the product quality within our stated specifications, please review Certificates of Analysis, which are available in the Order Center. Use of other materials in conjunction with MPM products (for example, primers) may require additional precautions. Please review and follow the safety information provided by the manufacturer of such other materials.

Limitations

Customers must evaluate Momentive Performance Materials products and make their own determination as to fitness of use in their particular applications.
